ABSTRACT OF THE DISCLOSURE

A method, system and computer program for providing real time online interactive recruitment. The method, system and computer program enables a job seeker to select a company of his choice through a selling process initiated by a recruiter over the network. The method, system and computer program further enables the recruiter in giving presentations of the selected companies to the job seeker. The method, system and computer program also allows the selected companies to take interview of the job seekers. The method, system and computer program also aids the recruiter in handling more than one job seeker during the online selling process.
